EXPERIENCE

Freelance Web Developer

2018-Present

Ernest H Johnson

Used the Wordpress Divi theme and created custom components to update the Products & Services section of ehj.co.za. React was used to provide a real time preview as new information is added and PHP was used to display the information for the user once saved.

Key Accomplishments:

- Updated the Products & Services pages to make them more intuitive, informative and user-friendly based on a pdf document provided by the client;
- Collaborated with the internal stakeholders successfully and met their expectations;
- Boosted user interactivity and organisation visibility through the addition of product and service information and the inclusion of downloadable PDF files

B.J. Automotive - <https://bjautomotive.co.nz/>

Developed a user-friendly webpage to bring attention to the organisation's services offered and contact details.

Key Accomplishments:

- Developed a user-friendly, intuitive and informative website from scratch with interactive features to optimize traffic and user experience;
- Collaborated with the internal stakeholders successfully and met their expectations;
- Boosted user interactivity and organisation visibility through the creation of the website & user reviews.

Miscellaneous

A working knowledge of CSS pre-processors such as SCSS. Use a module bundler (webpack) and a task runner (gulp) to make development with SCSS easier. Allows me to develop sites faster and more efficiently.

Smartgroup Corporation

2019-2020

Guidance Consultant

Perth, WA

Duties involved signing up new business and educating employees on what salary packaging is along with the benefits on offer that help employers attract, reward and retain their people. Speed, efficiency, multi-tasking, communication and working in a team were key in performing the role.

Key Achievements:

- Reviewed and restructured the Rebatale company signup process to ensure it was comprehensive, concise and correct that led to clearer information being conveyed to employees which increased employees signed up and reduced complaints from rebatale employers.
- Exceeded weekly targets and consistently ranked among the top performers in the team.
- Significantly reduced the work required by the company payroll team by highlighting the checks and processes the team could easily perform within our current operations

Pay-Plan Salary Packaging Leasing Consultant (2017-2019)

2015-2019

Perth, WA

Responsibilities involved developing and managing strong working relationships with key stakeholders such as Chevron and Water Corporation, improving business processes, meeting weekly deadlines and monthly targets, demonstrating cultural sensitivity and ensuring clear and correct information is conveyed.

Key Achievements:

- Improved the automation of the annual review process that took place at the end of the FBT year which reduced the time spent performing the process by 30%.
- Introduced additional salary packaging options to an existing client via conversations with their CFO that enhanced the benefits they offer to their employees which helped increase that company's portfolio size by 25% in Pay-Plan's system through increased sign-ups and reduced terminations.
- Reduced time spent on reporting to clients each payroll cycle by 70% through consolidating the process to require only one document and not separate payroll reports for each employee payroll change.
- Introduced new business to the company and coordinated with Directors to set-up client system profile.

Client Support Officer (2015-2017). Duties included managing the budgets of employee's salary packages, administering payments and assisting the employee with any queries. Being clear and concise when communicating was a principal part of the role.

Part-time Accountant at Narendra Daya & Co. (2014 – 2016). Duties involved assisting the accountant in organising accounting records and preparing tax returns for the clients using the accounting software.

EDUCATION

Certificate, Full Stack Web Development – The University of Western Australia
